

Section 106 – Additional Information Consulting Party Meeting

Section 4

December 17, 2009

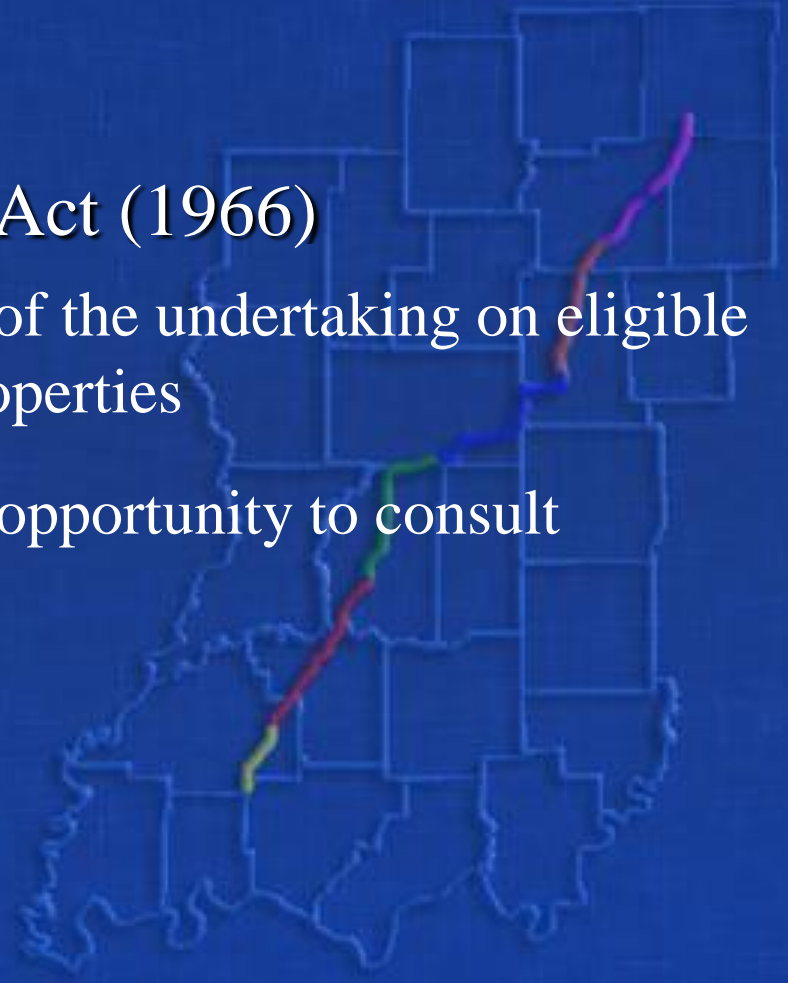

I-69 Evansville to Indianapolis Tier 2 Studies

Section 106

National Historic Preservation Act (1966)

- Take into account the effects of the undertaking on eligible or listed National Register properties
- Afford Advisory Council the opportunity to consult (www.achp.gov)

Section 106 Review

4 Step Process:

1. **Initiate** the process
2. **Identify** historic properties
3. **Assess** effects of undertaking on historic properties
4. **Resolve** any adverse effects

2004: Initiated the Process

Established that there is an undertaking ...

Identified Consulting Parties

Identified SHPO/THPO

2004-2006: Identified Historic Properties

Area of Potential Effects (APE) Developed in
Consultation with SHPO

2006: Identified Historic Properties:

The Scotland Hotel (055-576-56002; NR, 1993)

Blackmore Store (055-576-56001)

Clifty Church (055-324-50008)

Koontz House (105-607-45005)

Stipp-Bender Farmstead (105-115-35055)

Philip Murphy-Jonas May House (105-115-40051)

John May-Ada Wilson House (105-115-45062)

Harris Ford Bridge (105-115-35104)

2007: Assessed Effects

The Scotland Hotel: No Adverse Effect

Blackmore Store: No Adverse Effect

Clifty Church: No Adverse Effect

Koontz House: No Adverse Effect

Stipp-Bender Farmstead: No Adverse Effect

Philip Murphy-Jonas May House: No Adverse Effect

John May-Ada Wilson House: No Adverse Effect

Harris Ford Bridge: No Effect

2009: Additional Information Study

Scope of Work:

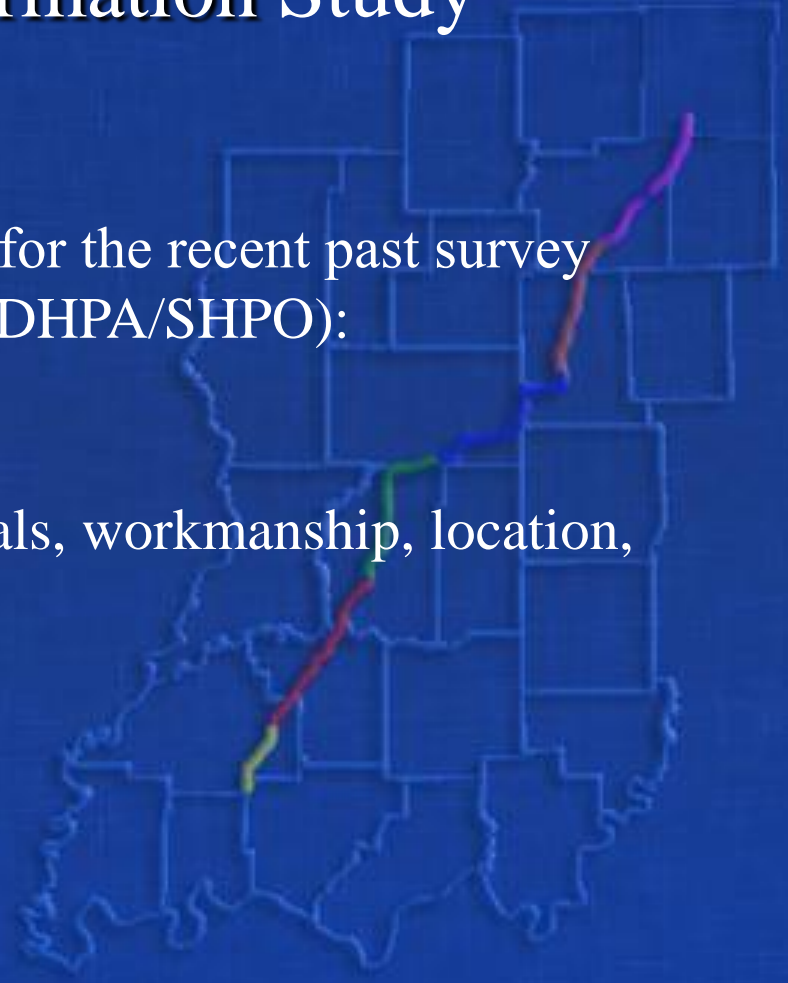

- 1) Review status of properties from 2004 survey
- 2) Survey recent past “Contributing properties” in the APE (those that have come of age since 2004 survey – date extended to 1967)
- 3) Produce an Additional Information Historic Property Report
- 4) Assess effects on any recommended eligible properties

Section 4: Additional Information Study

Definition of “Contributing property” for the recent past survey
(Developed in consultation with DHPA/SHPO):

High level of integrity (design, materials, workmanship, location, setting, feeling, and association)

Section 4: Additional Information Study

Recommended NR-Eligible properties (Developed in consultation with DHPA/SHPO):

1. Very high level of integrity (design, materials, workmanship, location, setting, feeling, and association)
2. Signify something greater than post-war suburban development (necessary to establish a historic and architectural context)

Section 4: Additional Information Study

NR Criteria:

- A. Association with events that have made a contribution to the broad patterns of history
- B. Association with the lives of significant persons
- C. Embodiment of the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant or distinguishable entity whose components may lack individual distinction
- D. Have yielded, or may be likely to yield, important data

2009: Additional Information Study

Integrity issues with mid-century homes:

4635 South East Lane

Maurice Head House

2009: Additional Information Study

Recommended Eligible: Maurice Head House

2009: Additional Information Study

Demolished NR eligible Property John May-Ada Wilson House

2004

2009

2009: Additional Information Study

- Demolished NR Eligible Property Philip Murphy-Jonas May House

2004

2009

Section 4: Additional Information Study

Review of surveyed properties from
2004 : Two NR Eligible Bridges,
per Indiana Historic Bridge
Inventory (Mead & Hunt)

1) Greene Co. Bridge 311 (Thacker)

2) Monroe Co. Bridge 83 (Dillman)

2009: Additional Information

Changes to Alternatives since last meeting

- ❖ 2009: Alternatives were reviewed & refined
- ❖ Maintained essentially the same alignment (horizontal location)
- ❖ Implemented a second set of engineering design criteria, resulting in two roadway profiles (vertical location)
 - “Initial Design Criteria” – original design approach
 - “Low-Cost Design Criteria” – a more aggressive approach
- ❖ Re-evaluated effects based on revised Alternatives

2009: Additional Information

Effects Findings for Extant Historic Properties (2007)

The Scotland Hotel: No Adverse Effect

Blackmore Store: No Adverse Effect

Clifty Church: No Adverse Effect

Koontz House: No Adverse Effect

Stipp-Bender Farmstead: No Adverse Effect

Harris Ford Bridge: No Effect

2009: Additional Information

Monroe Co. Bridge No. 83: No Effect

2009: Additional Information

Greene Co. Bridge No. 311: No Adverse Effect

2009: Additional Information

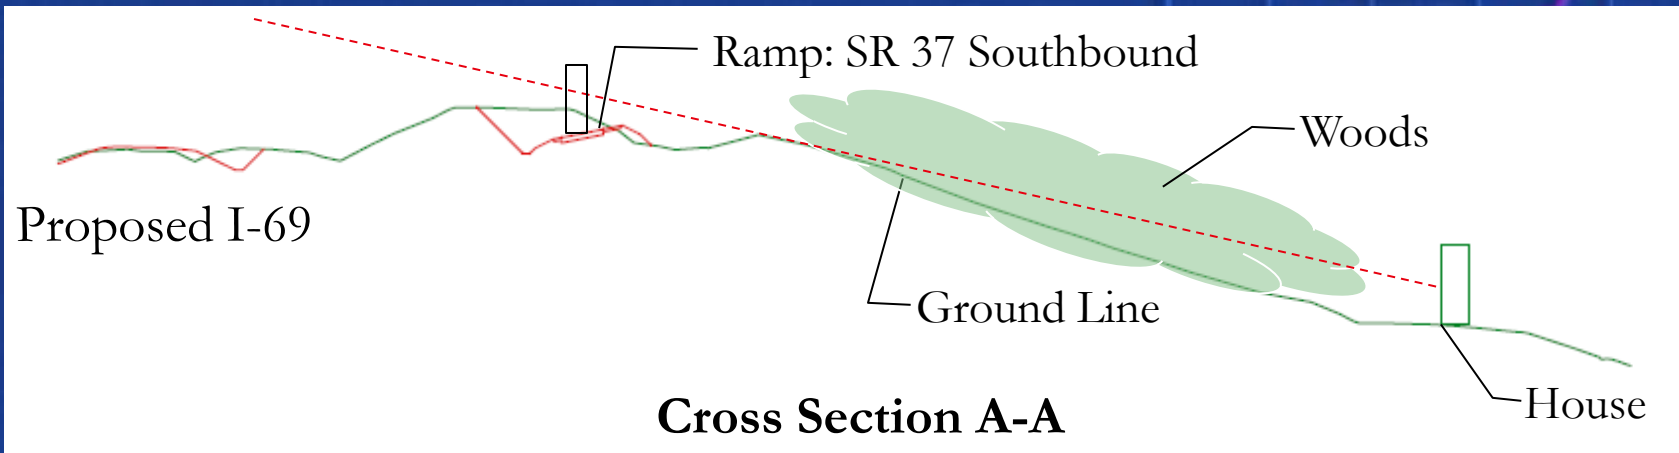

Maurice Head House: No Adverse Effect

2009: Additional Information

Maurice Head House: No Adverse Effect

2009: Additional Information

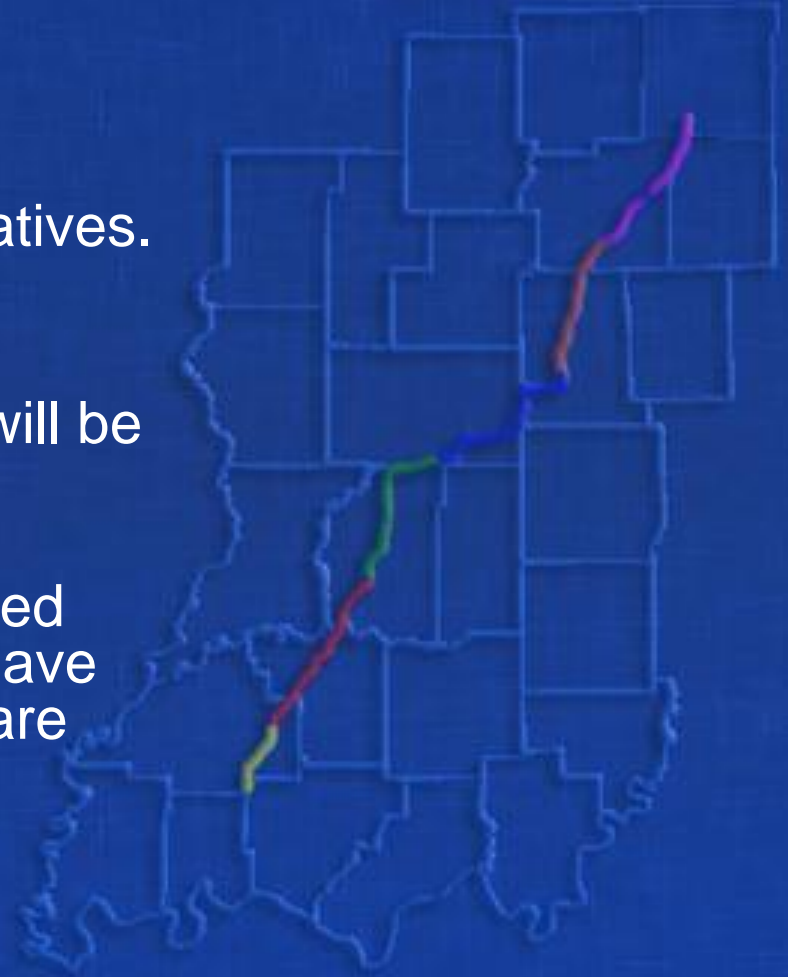

Stipp-Bender & SR 37 Interchange

Section 4: Archaeology

- Phase Ia survey completed for common right-of-way for alternatives.
- Phase Ia for broader corridor completed in vicinity of VIW.
- Remainder of Phase Ia and Ic will be completed when final preferred alternative identified.
- To date three previously recorded sites and 44 unrecorded sites have been identified; three of which are recommended for further work.
